About Weibo Corporation

Weibo is a leading social media for people to create, share and discover Chinese-language content. It provides an unprecedented and simple way for people and organizations to publicly express themselves in real time, interact with others and stay connected with the world. Any user can post a feed and attach multi-media or long-form content. User relationships on Weibo may be asymmetric; any user can follow any other user and add comments to a feed while reposting. This simple, asymmetric and distributed nature of Weibo allows an original feed to become a live viral conversation stream.

Weibo enables its advertising and marketing customers to promote their brands, products and services to users. Weibo offers a wide range of advertising and marketing solutions to its customers, ranging from large companies to small and medium-sized enterprises to individuals. The Company generates a substantial majority of revenues from the sale of advertising and marketing services, including the sale of social display ads and promoted feeds. Weibo has developed and is continuously refining its social interest graph recommendation engine, which enables its customers to perform people marketing and target audiences based on user demographics, social relationships, interests and behaviors, to achieve greater relevance, engagement and marketing effectiveness.

Safe Harbor Statement

This press release contains forward-looking statements that relate to, among other things, Weibo's expected financial performance and strategic and operational plans (as described, without limitation, in the "Business Outlook" section and in quotations from management in this press release. Weibo may also make forward-looking statements in the Company's periodic reports to the U.S. Securities and Exchange Commission ("SEC"), in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties.
