#### **Fourth Quarter 2022 Financial Results**

For the fourth quarter of 2022, Weibo's total net revenues were \$448.0 million, a decrease of 27% compared to \$616.3 million for the same period last year.

Advertising and marketing revenues for the fourth quarter of 2022 were \$390.5 million, a decrease of 29% compared to \$550.8 million for the same period last year. Advertising and marketing revenues excluding ad revenues from Alibaba were \$348.3 million, a decrease of 31% compared to \$505.3 million for the same period last year, primarily due to disruptions on the Company and its advertisers from COVID-19 control measures and infections in major areas of China during this quarter.

VAS revenues for the fourth quarter of 2022 were \$57.5 million, a decrease of 12% year-over-year compared to \$65.5 million for the same period last year. The decrease was mainly due to less revenue contribution from membership service and live streaming business.

Costs and expenses for the fourth quarter of 2022 totaled \$287.5 million, a decrease of 34% compared to \$433.8 million for the same period last year. The decrease was primarily due to the reverse of approximately \$58.8 million previously accrued compensation expenses based on a contingent payment arrangement between the Company and the founder of Shanghai Jiamian Information Technology Co., Ltd. ("JM Tech"), an entity consolidated into the Company since the fourth quarter of 2020, as the performance condition of JM Tech defined in the contingent payment arrangement was not met. The decrease of costs and expenses are also broad-based across all items, mainly attributable to the solid execution of the disciplined spending strategy for the Company to further improve its operating efficiency.

Income from operations for the fourth quarter of 2022 was \$160.5 million, compared to \$182.5 million for the same period last year. Operating margin was 36%, compared to 30% last year. Non-GAAP income from operations was \$152.0 million, compared to \$219.8 million for the same period last year. Non-GAAP operating margin was 34%, compared to 36% last year.

Non-operating loss for the fourth quarter of 2022 was \$21.1 million, compared to a loss of \$36.8 million for the same period last year. Non-operating loss for the fourth quarter of 2022 mainly included (i) a \$31.5 million investment related impairment, which is excluded under non-GAAP measure; (ii) a \$30.3 million net gain from fair value change of investments, which is excluded under non-GAAP measures; and (iii) a \$17.5 million net interest and other loss.

Income tax benefits were \$18.7 million, compared to income tax expense of \$45.6 million for the same period last year. The income tax benefits were primarily due to (i) the reversal of tax liabilities recognized related to uncertain tax positions; and (ii) lower taxable income in the fourth quarter of 2022 compared to the same period last year.

Net income attributable to Weibo's shareholders for the fourth quarter of 2022 was \$141.9 million, compared to \$115.7 million for the same period last year. Diluted net income per share attributable to Weibo's shareholders for the fourth quarter of 2022 was \$0.60, compared to \$0.50 for the same period last year. Non-GAAP net income attributable to Weibo's shareholders for the fourth quarter of 2022 was \$178.5 million, compared to \$195.5 million for the same period last year. As of December 31, 2022, Weibo's cash, cash equivalents and short-term investments totaled \$3.17 billion. For the fourth quarter of 2022, cash provided by operating activities was \$158.7 million, capital expenditures totaled \$15.3 million, and depreciation and amortization expenses amounted to \$12.4 million.

#### Fiscal Year 2022 Financial Results

For fiscal year 2022, Weibo's total net revenues were \$1.84 billion, a decrease of 19% compared to \$2.26 billion in 2021.

Advertising and marketing revenues for 2022 were \$1.60 billion, a decrease of 19% compared to \$1.98 billion in 2021. Advertising and marketing revenues excluding ad revenues from Alibaba were \$1.49 billion, a decrease of 19% compared to \$1.84 billion for 2021. The decrease was mainly resulted from disruptions from Covid-19 and macro weakness which largely impacted on advertising demands.

VAS revenues for 2022 were \$239.7 million, a decrease of 13% compared to \$276.3 million for 2021. The decrease was primarily due to less revenue contribution from membership service and live streaming business.

Costs and expenses for 2022 totaled \$1.36 billion, compared to \$1.56 billion for 2021. The decrease was primarily due to (i) the decrease of sales and marketing expenses as we executed a disciplined channel strategy; (ii) the reverse of approximately \$58.8 million previously accrued compensation expenses based on a contingent payment arrangement entered between the Company and the founder of JM Tech, an entity consolidated into the Company since the fourth quarter of 2020, as the performance condition of JM Tech defined in the contingent payment arrangement was not met; and (iii) a broad-based decrease of costs and expenses as we implemented our efficiency initiatives.

Non-operating loss for 2022 was \$352.4 million, compared to a loss of \$146.7 million for 2021. Non-operating loss in 2022 mainly included (i) a \$243.6 million net loss from fair value change of investments, which is excluded under non-GAAP measures; and (ii) a \$67.2 million investment related impairment, which is excluded under non-GAAP measures; and (iii) a \$39.3 million net interest and other loss.

Income tax expenses for 2022 were \$30.3 million, compared to \$138.8 million for 2021. The decrease in income tax expense was primarily resulted from (i) lower taxable income in 2022 versus 2021; and (ii) the reversal of tax liabilities recognized in 2021 related to uncertain tax positions.

Net income attributable to Weibo's shareholders for 2022 was \$85.6 million, compared to \$428.3 million for 2021. Diluted net income per share attributable to Weibo's shareholders for 2022 was \$0.36, compared to \$1.86 for 2021. Non-GAAP net income attributable to Weibo's shareholders for 2022 was \$540.1 million, compared to \$718.5 million for 2021. Non-GAAP diluted net income per share attributable to Weibo's shareholders for 2022 was \$2.27, compared to \$3.08 for 2021.

#### **Non-GAAP Financial Measures**

This release contains the following non-GAAP financial measures: non-GAAP income from operations, non-GAAP net income attributable to Weibo's shareholders, non-GAAP diluted net income per share attributable to Weibo's shareholders and adjusted EBITDA.

These non-GAAP financial measures should be considered in addition to, not as a substitute for, measures of the Company's financial performance prepared in accordance with U.S. GAAP.

The Company's non-GAAP financial measures exclude stock-based compensation, amortization of intangible assets resulting from business acquisitions, non-cash compensation cost to non-controlling interest shareholders, impairment of intangible assets, investment related income/losses, net, non-GAAP to GAAP reconciling items on the share of equity method investments, non-GAAP to GAAP reconciling items for the income/loss attributable to non-controlling interests, income tax expense related to the amortization and impairment of intangible assets resulting from business acquisitions and fair value change of investments (other non-GAAP to GAAP reconciling items have no tax effect), and amortization of issuance cost of convertible debt, unsecured senior notes and long-term loan. Adjusted EBITDA excludes interest income, net, income tax expenses (benefits), and depreciation expenses.

The Company's management uses these non-GAAP financial measures in their financial and operating decision-making, because management believes these measures reflect the Company's ongoing operating performance in a manner that allows more meaningful period-to-period comparisons. The Company believes that these non-GAAP financial measures provide useful information to investors and others in the following ways: (i) in comparing the Company's current financial results with the Company's past financial results in a consistent manner, and (ii) in understanding and evaluating the Company's current operating performance and future prospects in the same manner as management does, if they so choose. The Company also believes that the non-GAAP financial measures provide useful information to both management and investors by excluding certain expenses, gains (losses) and other items (i) that are not expected to result in future cash payments or (ii) that are non-recurring in nature or may not be indicative of the Company's core operating results and business outlook.

Use of non-GAAP financial measures has limitations. The Company's non-GAAP financial measures do not include all income and expense items that affect the Company's operations. They may not be comparable to non-GAAP financial measures used by other companies. Accordingly, care should be exercised in understanding how the Company defines its non-GAAP financial measures. Reconciliations of the Company's non-GAAP financial measures to the nearest comparable GAAP measures are set forth in the section below titled "Unaudited Reconciliation of Non-GAAP to GAAP Results."

- (1) To adjust impairment on, gain/loss on sale of, fair value change of investments and others.
- (2) To adjust the income tax effects of non-GAAP adjustments, which primarily related to amortization and impairment of intangible assets resulting from business acquisitions and fair value change of investments. Other non-GAAP adjustment items have no tax effect, because (i) they were recorded in entities established in tax free jurisdictions, or (ii) full valuation allowances were provided for related deferred tax assets as it is more-likely-than-not they will not be realized.
- (3) To adjust the number of shares for dilution resulted from convertible debt and unvested restricted share units which were anti-dilutive under GAAP measures.
- \* Net income attributable to Weibo's shareholders is adjusted for interest expense of convertible debt for calculating diluted EPS.
