Weibo Reports First Quarter 2017 Financial Results

BEIJING, China — May 16, 2017 — Weibo Corporation ("Weibo" or the "Company") (NASDAQ: WB), a leading social media in China, today announced its unaudited financial results for the first quarter ended March 31, 2017.

First Quarter 2017 Highlights

- Net revenues totaled \$199.2 million, an increase of 67% year-over-year, exceeding the Company's guidance between \$185 million and \$190 million.
- Advertising and marketing revenues were \$169.3 million, an increase of 71% year-over-year.
- Other revenues were \$29.9 million, an increase of 49% year-over-year.
- Net income attributable to Weibo was \$46.9 million, an increase of 561% year-over-year, and diluted net income per share was \$0.21, compared to \$0.03 for the same period last year.
- Non-GAAP net income attributable to Weibo was \$57.8 million, an increase of 254% year-over-year, and non-GAAP diluted net income per share was \$0.26, compared to \$0.07 for the same period last year.
- Adjusted EBITDA was \$70.5 million, an increase of 272% year-over-year, or 35% of net revenues, compared to 16% for the same period last year.
- Monthly active users ("MAUs") in March 2017 was 340 million, an increase of 30% year-over-year, 91% of which were mobile users. Average daily active users in March 2017 was 154 million, an increase of 28% year-over-year.

"Our relentless focus to build the best social media experience in China is reflected in Weibo's strong performance in the first quarter of 2017, with revenues growing 67% year over year, or 76% on a constant currency basis, adjusted EBITDA margin reaching 35% and MAUs reaching 340 million," said Gaofei Wang, Weibo's CEO. "Looking ahead, we continue to see strong momentum, as we further optimize Weibo to share, discover and consume information, especially for the mobile, social and video environment."

First Quarter 2017 Financial Results

For the first quarter of 2017, Weibo reported net revenues of \$199.2 million, compared to \$119.3 million for the same period last year. Advertising and marketing revenues totaled \$169.3 million, compared to \$99.2 million for the same period last year; and advertising and marketing revenues from small & medium-sized enterprises ("SMEs") and key accounts were \$161.5 million, compared to \$88.1 million for the same period last year. Other revenues totaled \$29.9 million, compared to \$20.0 million for the same period last year.

Costs and expenses for the first quarter of 2017 totaled \$143.4 million, compared to \$112.1 million for the same period last year. Non-GAAP costs and expenses were \$132.5 million, compared to \$103.4 million for the same period last year. The increase in non-GAAP costs and expenses was primarily due to an increase in marketing expenses, as well as an increase in turnover taxes resulting from higher revenues.

Income from operations for the first quarter of 2017 was \$55.9 million, compared to \$7.2 million for the same period last year. Non-GAAP income from operations was \$66.7 million, compared to \$15.9 million for the same period last year.

Non-operating income for the first quarter of 2017 was \$2.1 million, compared to \$0.6 million for the same period last year. Income tax expenses were \$11.3 million, compared to \$0.5 million for the same period last year, primarily due to higher profitability and the change in tax status of the Company's PRC subsidiary from being fully tax exempted to being subject to 50% of the enterprise income tax rate in 2017.

Net income attributable to Weibo for the first quarter of 2017 was \$46.9 million, or diluted net income per share of \$0.21, compared to \$7.1 million for the same period last year, or diluted net income per share of \$0.03. Non-GAAP net income attributable to Weibo for the first quarter of 2017 was \$57.8 million, or diluted net income per share of \$0.26, compared to \$16.4 million for the same period last year, or diluted net income per share of \$0.07.

As of March 31, 2017, Weibo's cash, cash equivalents and short-term investments totaled \$444.2 million. For the first quarter of 2017, cash provided by operating activities was \$72.5 million, capital expenditures totaled \$4.5 million, and depreciation and amortization expenses amounted to \$3.4 million.

Business Outlook

For the second quarter of 2017, Weibo estimates that its net revenues to be between \$240 million and \$250 million, which assumes a RMB to US dollar average exchange rate of 6.9. This forecast reflects Weibo's current and preliminary view, which is subject to change.

Conference Call

Weibo's management team will host a conference call from 7 AM — 8 AM Eastern Time on May 16, 2017 (or 7 PM — 8 PM Beijing Time on May 16, 2017) to present an overview of the Company's financial performance and business operations. A live webcast of the call will be available through the Company's corporate website at http://ir.weibo.com. The conference call can be accessed as follows:

US Toll Free: +1 866-519-4004 Hong Kong Toll Free: 800-906-601 China Toll Free: 400-620-8038 International: +65 6713-5090 Passcode for all regions: 18358362

A replay of the conference call will be available through midnight, Eastern Time on May 23, 2017. The dial-in number is +61 2-8199-0299. The passcode for the replay is 18358362.

Non-GAAP Financial Measures

This release contains the following non-GAAP financial measures: non-GAAP costs and expenses, non-GAAP income from operations, non-GAAP net income attributable to Weibo, non-GAAP diluted net income per share attributable to Weibo and adjusted EBITDA. These non-GAAP financial measures should be considered in addition to, not as a substitute for, measures of the Company's financial performance prepared in accordance with U.S. GAAP.

The Company's non-GAAP financial measures exclude stock-based compensation, amortization of intangible assets, net gain on the sale of investments and impairment on investments, non-GAAP to GAAP reconciling items for the loss attributable to non-controlling interest, and provision for income tax related to the amortization of intangible assets (other non-GAAP to GAAP reconciling items have no tax effect). Adjusted EBITDA excludes interest income, income tax expenses, and depreciation expenses. The Company's management uses these non-GAAP financial measures in their financial and operating decision-making, because management believes these measures reflect the Company's ongoing operating performance in a manner that allows more meaningful period-to-period comparisons. The Company believes that these non-GAAP financial measures provide useful information to investors and others in the following ways: (i) in comparing the Company's current financial results with the Company's past financial results in a consistent manner, and (ii) in understanding and evaluating the Company's current operating performance and future prospects in the same manner as management does, if they so choose. The Company also believes that the non-GAAP financial measures provide useful information to both management and investors by excluding certain expenses, gains (losses) and other items (i) that are not expected to result in future cash payments or (ii) that are non-recurring in nature or may not be indicative of the Company's core operating results and business outlook.

Use of non-GAAP financial measures has limitations. The Company's non-GAAP financial measures do not include all income and expense items that affect the Company's operations. They may not be comparable to non-GAAP financial measures used by other companies. Accordingly, care should be exercised in understanding how the Company defines its non-GAAP financial measures. Reconciliations of the Company's non-GAAP financial measures to the nearest comparable GAAP measures are set forth in the section below titled "Unaudited Reconciliation of Non-GAAP to GAAP Results."

About Weibo

Weibo is a leading social media for people to create, share and discover Chinese-language content. It provides an unprecedented and simple way for people and organizations to publicly express themselves in real time, interact with others and stay connected with the world. Any user can post a feed and attach multi-media or long-form content. User relationships on Weibo may be asymmetric; any user can follow any other user and add comments to a feed while reposting. This simple, asymmetric and distributed nature of Weibo allows an original feed to become a live viral conversation stream.

Weibo enables its advertising and marketing customers to promote their brands, products and services to users. Weibo offers a wide range of advertising and marketing solutions to its customers, ranging from large companies to small and medium-sized enterprises to individuals. The Company generates a substantial majority of revenues from the sale of advertising and marketing services, including the sale of social display ads and promoted feeds. Weibo has developed and is continuously refining its social interest graph recommendation engine, which enables its customers to perform people marketing and target audiences based on user demographics, social relationships, interests and behaviors, to achieve greater relevance, engagement and marketing effectiveness.

Safe Harbor Statement

This press release contains forward-looking statements that relate to, among other things, Weibo's expected financial performance and strategic and operational plans (as described, without limitation, in the "Business Outlook" section and in quotations from management in this press release. Weibo may also make forward-looking statements in the Company's periodic reports to the U.S. Securities and Exchange Commission ("SEC"), in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about the Company's beliefs and expectations, are forward-looking statements. These forward-looking statements can be identified by terminology, such as "will," "expects," "anticipates," "future," "intends," "plans," "believes," "confidence," "estimates" and similar statements. Forwardlooking statements involve inherent risks and uncertainties. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Potential risks and uncertainties include, but are not limited to, Weibo's limited operating history in certain new businesses; failure to grow active user base and the level of user engagement; the uncertain regulatory landscape in China; fluctuations in the Company's quarterly operating results; the Company's reliance on advertising and marketing sales for a majority of its revenues; failure to successfully develop, introduce, drive adoption of or monetize new features and products; failure to compete effectively for advertising and marketing spending; failure to successfully integrate acquired businesses; risks associated with the Company's investments, including equity pick-up and impairment; failure to compete successfully against new entrants and established industry competitors; changes in the macro-economic environment, including the depreciation of the Renminbi; and adverse changes in economic and political policies of the PRC government and its impact on the Chinese economy. Further information regarding these and other risks is included in Weibo's annual report on Form 20-F for the fiscal year ended December 31, 2016 filed with the SEC on April 27, 2017 and other filings with the SEC. All information provided in this press release is current as of the date hereof, and Weibo assumes no obligation to update such information, except as required under applicable law.

(a) To exclude stock-based compensation.

(b) To exclude amortization of intangible assets.

(c) To exclude net gain on the sale of investments and impairment on investments.

(d) To exclude Non-GAAP to GAAP reconciling items for the loss attributable to non-controlling interests.

(e) To exclude the provision for income tax related to item (b). Other non-GAAP to GAAP reconciling items have no income tax effect.

Most of the reconciliation items were recorded in entities in tax free jurisdictions hence no income tax implications.

For impairment on investments, valuation allowances were made for those differences the Company does not expect to realize the benefit in the foreseeable future.
