Fourth Quarter 2017 Financial Results

For the fourth quarter of 2017, Weibo reported net revenues of \$377.4 million, compared to \$212.7 million for the same period last year. Advertising and marketing revenues totaled \$332.3 million, compared to \$187.9 million for the same period last year, and advertising and marketing revenues from small & medium-sized enterprises (“SMEs”) and key accounts were \$294.0 million, compared to \$163.2 million for the same period last year, or an increase of 80% year-over-year. Costs and expenses for the fourth quarter of 2017 totaled \$232.2 million, compared to \$149.1 million for the same period last year. The increase in costs and expenses was primarily attributable to more marketing and development expenditures incurred and higher turnover tax costs (resulting from higher revenues). Non-GAAP costs and expenses were \$220.0 million, compared to \$139.2 million for the same period last year.

Income from operations for the fourth quarter of 2017 was \$145.3 million, compared to \$63.7 million for the same period last year. Non-GAAP income from operations was \$157.5 million, compared to \$73.5 million for the same period last year.

Non-operating income for the fourth quarter of 2017 was \$1.7 million, compared to a non-operating loss of \$21.3 million for the same period last year. Non-operating loss for the fourth quarter of 2016 mainly resulted from \$24.2 million impairment on investments, which was excluded under non-GAAP measures. Income tax expenses were \$17.0 million, compared to \$55 thousand for the same period last year. The increase was primarily due to higher profitability and the change in tax status of the Company’s PRC subsidiary in 2017 from being fully tax exempted to being subject to a reduced enterprise income tax rate of 12.5%.

Net income attributable to Weibo for the fourth quarter of 2017 was \$131.0 million, or diluted net income per share of \$0.58, compared to \$43.0 million for the same period last year, or diluted net income per share of \$0.19. Non-GAAP net income attributable to Weibo for the fourth quarter of 2017 was \$146.0 million, or diluted net income per share of \$0.64, compared to \$77.0 million for the same period last year, or diluted net income per share of \$0.34.

Aside from earnings, the increase in cash, cash equivalents and short-term investments was also attributed to the net proceeds received from the issuance of \$900 million convertible senior notes. For the fourth quarter of 2017, cash provided by operating activities was \$198.3 million, capital expenditures totaled \$9.0 million, and depreciation and amortization expenses amounted to \$4.5 million.

For 2017, Weibo reported net revenues of \$1.15 billion, compared to \$655.8 million in 2016. Advertising and marketing revenues totaled \$996.7 million, compared to \$571.0 million in 2016. 2016, or an increase of 78% year-over-year. Revenue from Alibaba was \$84.7 million, compared to \$57.9 million for 2016. VAS revenues totaled \$153.3 million, compared to \$84.8 million for 2016.

Costs and expenses for 2017 totaled \$742.5 million, compared to \$514.8 million for 2016. The increase in costs and expenses was primarily due to an increase in marketing expenses, turnover tax costs (resulting from higher revenues) and payroll-related expenses. Non-GAAP costs and expenses were \$693.8 million, compared to \$477.2 million for 2016.

Income from operations for 2017 was \$407.6 million, compared to \$141.0 million for 2016. Non-GAAP income from operations was \$456.2 million, compared to \$178.6 million for 2016.

Non-operating income for 2017 was \$9.6 million, compared to a non-operating loss of \$31.0 million for 2016. Non-operating loss for 2016 mainly resulted from investment related impairment of \$40.2 million, which was excluded under non-GAAP measures. Income tax expenses were \$66.7 million, compared to \$4.3 million for the same period last year. The increase was primarily due to higher profitability and the change in tax status of the Company's PRC subsidiary in 2017 from being fully tax exempted to being subject to a reduced enterprise income tax rate of 12.5%.

Net income attributable to Weibo for 2017 was \$352.6 million, or diluted net income per share of \$1.56, compared to \$108.0 million for 2016, or diluted net income per share of \$0.48. Non-GAAP net income attributable to Weibo for 2017 was \$405.7 million, or diluted net income per share of \$1.80, compared to \$183.5 million for 2016, or diluted net income per share of \$0.82.

Non-GAAP Financial Measures

This release contains the following non-GAAP financial measures: non-GAAP costs and expenses, non-GAAP income from operations, non-GAAP net income attributable to Weibo, non-GAAP diluted net income per share attributable to Weibo and adjusted EBITDA. These non-GAAP financial measures should be considered in addition to, not as a substitute for, measures of the Company's financial performance prepared in accordance with U.S. GAAP.

The Company's non-GAAP financial measures exclude stock-based compensation, amortization of intangible assets, net results of impairment on investments and gain on sale of investments, non-GAAP to GAAP reconciling items for the loss attributable to non-controlling interests, provision for income tax related to the amortization of intangible assets (other non-GAAP to GAAP reconciling items have no tax effect), and amortization of convertible debt issuance cost. Adjusted EBITDA excludes interest income, net, income tax expenses, and depreciation expenses. The Company's management uses these non-GAAP financial measures in their financial and operating decision-making, because management believes these measures reflect the Company's ongoing operating performance in a manner that allows more meaningful period-to-period comparisons. The Company believes that these non-GAAP financial measures provide useful information to investors and others in the following ways: (i) in comparing the Company's current financial results with the Company's past financial results in a consistent manner, and (ii) in understanding and evaluating the Company's current operating performance and future prospects in the same manner as management does, if they so choose. The Company also believes that the non-GAAP financial measures provide useful information to both management and investors by excluding certain expenses, gains (losses) and other items (i) that are not expected to result in future cash payments or (ii) that are non-recurring in nature or may not be indicative of the Company's core operating results and business outlook.

Use of non-GAAP financial measures has limitations. The Company's non-GAAP financial measures do not include all income and expense items that affect the Company's operations. They may not be comparable to non-GAAP financial measures used by other companies. Accordingly, care should be exercised in understanding how the Company defines its non-GAAP financial measures. Reconciliations of the Company's non-GAAP financial measures to the nearest comparable GAAP measures are set forth in the section below titled "Unaudited Reconciliation of Non-GAAP to GAAP Results."
